

How to Get a Sermon Recording

June 2015

St. Christopher's Church

St Christopher's Church, Woodlands Road, Birmingham, B11 4ET, UK

Introduction

All the sermons at St Christopher's are recorded. The recordings are then available to those people who missed the sermon or who would like to hear it again. The recordings in a number of formats:

- On a CD;
- Online for you to listen in your web browser;
- As an MP3 download;
- As a podcasts to which you can subscribe.

Recordings on CD

The CD copies are made in a standard CD-R format which most CD players can play.

They are free to anyone that wants one; whether for yourself or for someone else you know for whom might the sermon might be helpful. The blank CDs cost about £0.25p for the Church to produce. If you want to make a contribution to their cost you can, but this is not necessary. If you are a regular church member, then a regular donation through Gift Aid is better for the church, as it enables the church to both reclaim the tax and to budget better, so you should always try and give using this method if you can,.

Ordering a CD

Although a number of spare copies of the sermon are always made, since it takes a while to make a copy, it is helpful if you order a copy before the service or immediately after the service has finished. It can then be copied for you during the service and be ready for you when it ends. We also keep copies of all the past recordings so if you want a sermon you have missed, or want to listen again to an old one you can ask for a copy. Previous recordings are available from 7th February 2011 when we first started recording onto CDs.

Listening online or downloading a copy at buzzsprout.com

This will allow you to either download the file or to listen to the recording online. Listening online is the easiest method provided you are connected to the internet.
